To arrive at a fair and accurate foundation for such a study, it is necessary to secure detailed data of the relative cost of maintenance of various portions of the track structure in comparison with the cost of maintaining one mile of main track as a unit. The Committee is endeavoring to secure the co-operation of a number of roads in selecting certain main and branch line sections of ordinary track, section length, on which the actual records of cost will be accurately kept and reported to the Committee. Such sections should preferably be those on which only routine maintenance work will be done, as this study is intended primarily to cover maintenance charges only, and all additions and betterments on...
