Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The High School Algebra, Vol. 1 Teachers of mathematics have for some time felt that the Algebras now in use in our High Schools and Collegiate Institutes are not adapted to the wants and requirements of the present day. In these works some of the most important departments of Elementary Algebra, such as Factoring, Symmetry, Theory of Divisors and Theory of Equations, are treated so briefly or so superficially that the pupil has found it impossible to obtain a satisfactory knowledge of these subjects without drawing heavily on the resources of the teacher. In the following pages an effort has been made to treat with considerable fullness the various departments either deficient or wholly absent in the ordinary text-books. While no branch has been slighted, special attention has been devoted to the Theory of Positive and Negative Numbers, to Factoring, Surds, Symmetry, Theory of Divisors and Theory of Quadratics. Convinced that a large and well graded selection of problems is a desideratum in any manual intended for class work, we have selected and constructed with great care such as we hope will meet the wants of both teachers and pupils. An effort has been made to secure accuracy, but it is quite possible that errors may have crept in despite our vigilance. We shall be glad to have such pointed out so that they may be removed from subsequent editions. Some difference of opinion may exist as to the propriety of the order in which the different subjects have been introduced. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an...
