With tens of millions of hectares and hundreds of millions of lives in the balance, the debate over who should control South Asia's forests is of tremendous political significance. This book provides an insightful and thorough assessment of important forest management transitions currently underway. MARK POFFENBERGER, EXECUTIVE DIRECTOR OF COMMUNITY FORESTRY INTERNATIONAL The contributions in this volume not only breathe life into the field of writing and analysis related to forests, they do so on the strength of extraordinarily insightful research. Kudos to Springate-Baginski and Blaikie for providing us with a set of thoroughly researched, provocative studies that should be required reading not only for those interested in community forestry in south Asia, but in resource governance anywhere.
