

## Colliers Volume 45, Nos. 1-14

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 76 pages. OCLC Number: (OCoLC)49346656 Subject: Gas manufacture and works -- Waste disposal. Excerpt: . . . Six test runs were performed during a comprehensive demonstration testing program. The average results of these test runs showed that concentrations of total and cPAHs in the treated soil were reduced from 804 mg kg and 95 mg kg, respectively, to less than 3. 3 mg kg and less than 1. 22 mg kg, respectively. A DRE of greater than 99. 99 percent was demonstrated for all combined PAH compounds. Stack gas was sampled and analyzed for all combined PAH compounds. Sulfur dioxide, nitrogen oxide, carbon monoxide, and PAH emissions were in accordance with the USEPA and Iowa DNR protocol. Bruce Greer, Alliant Energy, (608) 252-3948 Johanshir Golchin, Iowa Department of Natural Resources, ( 515) 281-8925 Diane Engeman, USEPA Region VII, (913) 551-7746 In situ thermal processes are treatment processes designed to increase the mobilization of contaminants via volatilization and viscosity reduction. The addition of heat to the subsurface by radio frequency, electrical resistance, or steam increases the removal of organic compounds particularly in low permeability...

## Reviews

The ideal publication i possibly go through. I was able to comprehended every thing out of this published e publication. I am delighted to explain how this is actually the finest pdf i have got read inside my personal existence and could be he very best ebook for possibly.

-- Roberto Friesen

This written book is excellent. It typically is not going to price a lot of. I found out this book from my dad and i encouraged this book to discover.
